Additional descriptive comments on figurative or decorative portion of the exterior: This is the right leg and lower right abdomen. A projecting foot is broken off. A flange or projection on the figure's right side may be part of an arm. Projecting onto the chest from the flange is a "C"-shaped item of raised edger and a depressed middle. The chest is covered by something which may be a jaguar pelt: it has many oval punctations in 7 rough rows; no columnar alignment. A solid belt may be part of a loincloth - hanging between the legs is an undecorated loincloth flap. Between the belt and the broken-off right foot are 2 rows of rectangular plates, oriented up long dimensions right-left. Each has a small punctation @ the center.

The item is: not eroded - slightly - moderately - very - extremely eroded.

It: has - does not have other damage. Describe:

Not drawn - drawn. Where?

Comments: The top row of plates has 5; the bottom also has 5, but they are not aligned in columns. Similar to 86/024-1
